

DEALER TRAINING MODEL YEAR 2021

Bosch eBike Systems 2021 | EN

BOSCH

Invented for life

Boost your Bosch eBike expertise

The new training courses from October 2020

Discover the impressive strengths of our systems, which ensure unique riding enjoyment. Learn exciting facts from our company's think tanks and all about the mobility of the future. And find new ways to make your eBike business reach even higher peaks.

Look forward to our instructors and the flow in their blood. With their many years of industry experience, they will get you into top shape for your workshop, service and sales activities and are open to all your questions and ideas.

Training course contents

- ▶ The new Nyon for a fully connected eBike experience – now with touch screen operation
- ▶ Kiox now with navigation: Supports ambitious, sporty riders in exploring unknown areas
- ▶ Performance Line CX: Up to 85Nm, new motor control features and an enhanced eMTB mode – for a more natural, intuitive, and powerful riding experience
- ▶ Performance Line/Cargo Line software update: Max. 85Nm for even easier starting on inclines and even more powerful support in low gears
- ▶ Help Connect – the premium function for the COBI.Bike app as a digital companion for rapid assistance if a fall is detected
- ▶ DiagnosticTool – even more functions, e.g. more efficient and easier working with service cases
- ▶ New service for eBike specialized retailers – increase online visibility with customers and be found more easily

General information

- ▶ Registration fee: €70
- ▶ Includes: meals, Bosch eBike manual, dealer folder and a personal certificate of participation
- ▶ Duration: approx. 6–8 hours
